

Mark Barash is a senior attorney with the United States Department of the Interior in DOI's Northeast Regional Office. He has worked extensively on NRD matters for almost 20 years, both overseeing and handling cases, and developing national program and policy initiatives for the Department including efforts to streamline assessment and restoration approaches, to refine cooperative assessment practices, and to encourage both the integration of RI/FS and NRD data collection and the incorporation of natural resource restoration into remedial activities. He has spearheaded the refinement of techniques for establishing claims for complex damages such as those arising from Tribal religious/ cultural losses, and has led regional initiatives to integrate more closely the efforts of Federal, State, and Tribal natural resource trustees.

In his regional capacity Mr. Barash oversees Departmental legal efforts for natural resource damage claims from oil spills, hazardous substance releases, and under the Park Service Resource Protection Act in a 13 State region from Maine to Virginia. In addition, he manages and directs multiple NRD claims such as the Hudson River/GE PCBs, Passaic River/ Newark Bay Complex, and St Lawrence River/ Massena Environment, along with oil spills such as the BT 120 Bouchard in Massachusetts and Rhode Island.

Mr. Barash has significant teaching and lecturing experience, including multiple presentations domestically at ABA, SETAC, and other conferences, as a guest lecturer at Columbia University Law School, Boston University School of Law, and currently as an adjunct professor of law at Boston College Law School. He has developed and provided NRD training within DOI, to Federal, State, and Tribal trustees, and for the UNEP.
