

Nina Bell is the Executive Director of Northwest Environmental Advocates. She has been involved in all aspects of advocacy for water quality-based regulation, both nationally and in the Pacific Northwest, through TMDLs, NPDES permits, nonpoint source controls, and water quality standards. Ms. Bell has served on numerous advisory committees, including EPA's Federal Advisory Committee on TMDLs (1996-98), and she co-chaired the Lower Columbia River Bi-State Water Quality Study (1990-92). In her capacity with NWEA, Ms. Bell has brought and assisted with the litigation and settlement of numerous Clean Water and Endangered Species Act cases including the following: NWEA v. City of Portland (CSOs); NWEA v. Browner (OR TMDL schedule); NWEA v. Browner (WA TMDL schedule); NWEA v. U.S. EPA I & II (OR temperature standards); NWEA v. Locke (CZARA nonpoint controls); NWEA v. EPA (OR temperature TMDLs); four cases against EPA concerning ship discharges of ballast water; and numerous cases against federal agencies concerning water quality standards in Oregon, Washington, and Idaho.

Ms. Bell graduated from Lewis & Clark Law School's night program cum laude in 1991. In 2002, she was the recipient of Lewis and Clark Law School's Distinguished Environmental Law Graduate Award.
