

COVERED ELECTRONIC EQUIPMENT (§ 27-2601.5)

INCLUDES:

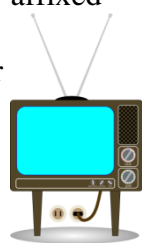

Computers

- An electronic, magnetic, optical, electrochemical or other high-speed data processing device performing a logical, arithmetic or storage function
- Both laptop and desktop computers
- Any cable, cord, or wiring permanently affixed to or incorporated into such products
- Both a computer central processing unit and a monitor
- **NOT** an automated typewriter or typesetter, a portable hand-held calculator, a portable digital assistant, server, or other similar device

Computer peripherals

- Monitor
- Electronic keyboard
- Electronic mouse or similar pointing device
- Facsimile machine, document scanner, or printer intended for use with a computer
- Any cable, cord, or wiring permanently affixed to or incorporated into any such product
- **NOT** any document scanner or printer that weighs one hundred pounds or more.

Cathode ray tubes

Televisions

Small electronic equipment

- Any portable digital music player that has memory capability and is battery-powered

- Video cassette recorder
- Digital video disc player
- Digital video recorder
- Digital converter box
- Cable or satellite receiver
- Electronic or video game console
- Any cable, cord, or wiring permanently affixed to or incorporated into any such product.

Small-scale server

- A computer that typically uses desktop components in a desktop form factor, but is designed primarily to be a storage host for other computers.
- To be considered a small-scale server, a computer must have the following characteristics:
 1. Designed in a pedestal, tower, or other form factor similar to those of desktop computers such that all data processing, storage, and network interfacing is contained within one box or product
 2. Intended to be operational 24/7, and unscheduled downtime is extremely low, such as on the order of hours per year
 3. Capable of operating in a simultaneous multi-user environment serving several users through networked client units; and
 4. Designed for an industry accepted operating system for home or low-end server applications

EXCLUDES:

- Any motor vehicle or any part thereof
- Camera or video camera
- Portable or stationary radio
- Household appliances such as clothes washers and dryers, refrigerators, freezers, microwave ovens, ovens, ranges, or dishwashers
- Equipment that is functionally or physically part of a larger piece of equipment intended for use in an industrial, research and development or commercial setting
- Security or anti-terrorism equipment
- Monitoring and control instrument or system
- Thermostat
- Hand-held transceiver
- Telephone of any type
- Portable digital assistant or similar device
- Calculator
- Global Positioning System (GPS) receiver or similar navigation device
- A server other than a small-scale server
- A cash register or retail self-checkout system
- A stand-alone storage product intended for use in industrial, research and development, or commercial settings
- Commercial medical equipment that contains within it a cathode ray tube, a flat panel display or similar video display device, and is not separate from the larger piece of equipment
- Other medical devices, as that term is defined under the Federal Food, Drug and Cosmetic Act
