The In-Lieu Fee Mitigation Training Webinar Series is designed to help states, tribes, and local governments; conservation organizations; and other interested groups develop or refine their in-lieu fee programs, including the development of in-lieu fee programs for compensatory mitigation. The series of webinars will focus on specific subjects, providing in-depth technical support on the topics of most interest to participants. The topics were chosen with the assistance of an Advisory Committee based on an assessment of the needs of state, tribal, and local governments, conservation organizations seeking approval for or overseeing the development of state-wide or regional in-lieu fee programs.

More information on the individual webinars is posted below as it becomes available. PowerPoint presentations, archived recordings, and helpful resources are available for each webinar by clicking the links below. Participants can contact Rebecca Kihslinger (kihslinger@eli.org) or Talia Fox (fox@eli.org) for more information or to register for upcoming webinars.
